## Competency assessment using APP tool

Prospective supervisors are referred to the *Assessment of Physiotherapy Practice Instrument* (Dalton M, Keating J, Davidson M 2009), available via the Australian Learning and Teaching Council at [www.altc.edu.au/resource-app-clinical-educator-resource-manual-griffith-2009](http://www.altc.edu.au/resource-app-clinical-educator-resource-manual-griffith-2009).

### Key:

0 – infrequently/rarely demonstrates performance indicators

1 – demonstrates few performance indicators to an adequate standard

2 – demonstrates most performance indicators to an adequate standard

3 – demonstrates performance indicators to a good standard

4 – demonstrates most performance indicators to an excellent standard

n/a – not assessed

### Scoring rules:

- Circle n/a only if the physiotherapist under supervision has not had an opportunity to demonstrate the behaviour.
- If an item is not assessed, it is not scored and the total APP is adjusted for the missing item.
- Circle only one number for each item.
- If a score falls between numbers on the scale, the higher number will be used to calculate a total.
- Evaluate the performance of the physiotherapist under supervision against the minimum competency level expected for an entry-level physiotherapist.

*Note: a rating of 0 or 1 indicates that minimum acceptable competency has not been achieved*
